*Pallet prices are collected prices – please contact us for delivered cost*

**\* Full loads only or bags by pallet**

## **DELIVERY TERMS**

*Deliveries will be made from receipt of payment and may also be dependent on cleared funds and products ordered and dates available. Delivery is always chargeable.*

*Delivery arrangements may be made for a certain date within business hours only (Mon to Fri). Other times may be arranged only by special appointment.*

*1) We offer roadside delivery only. It is worth considering where heavy goods are involved (beams and sleepers, also joinery) that you may require some help while the goods are being dropped. In some cases we can offer additional labor at an extra cost to be prior arranged.*

*2) At the time of ordering if there are any restricted access issues to your address and times that are not good such as school drop offs, please make us aware.*

*3) We are able to deliver in all areas including England the Channel Islands and the Continent. Please contact us for prices.*

*4) Collections in person are always welcome but should be arranged prior to arrival – Goods must be paid for in full when collecting. And a mutually convenient time must be agreed first in order that we may have them ready for your collection thus saving you time upon arrival. Our goods are heavy so vehicles should be designed to carry the weight intended. Goods being loaded into cars will be done so at your own risk.*

*5) Please ensure your contact information is correct and that there is at least one telephone number we may contact you on to finalise delivery arrangements.*

*6) You may contact us prior to ordering regarding any of the points above or any other concerns you may have on telephone: 01233 732179*

*7) We have no control in the weather when delivering; if a delivery is refused due to bad weather and we have already dispatched goods there will be a secondary delivery cost. This also applies to no one there to accept deliveries.*

## **PALLET DROPS BY THIRD PARTIES**

*8) Deliveries that are made on a pallet and which are delivered by a third party are normally left at curb side but if someone is there to help they can be pushed on the drive, some things need to be taken into account when taking in these deliveries such as no gravel drives narrow access whether it be roads to or narrow gate ways also level/flat drives.*

*9) Any damages or shortages should be reported to the driver at the time of delivery, we can not be held responsible after this time.*

*10) If when delivering and no one is found to be at the address after prior arrangement there may be additional delivery costs.*

*11) Please be aware deliveries are made using tail lifts and pump trucks.*
